**PENTRON SYSTEMS SOLUTION**  
Build-It™ FR • Breeze™ • FibreKleer™ 4x

\*Build-It FR can also be used as a post cement.

**PENTRON SYSTEMS SOLUTION**  
Build-It™ FR • Breeze™ • FibreKleer™ 4x

Step

1

**BREEZE™**  
Self-Adhesive  
Resin Cement

Step

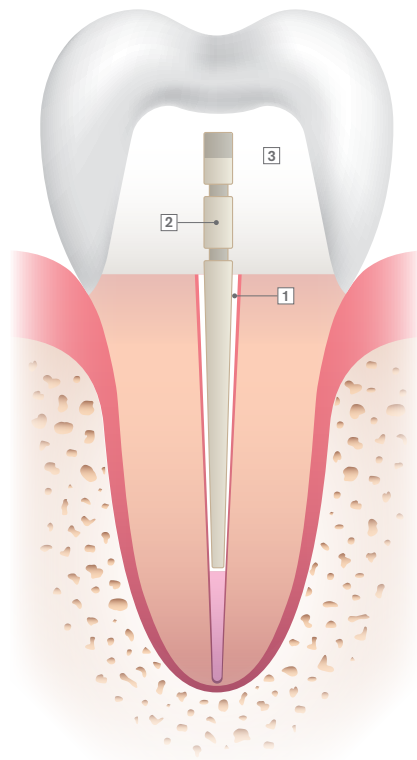

2

**FIBREKLEER™ 4x**  
Fiber Post

Step

3

**BUILD-IT™ FR\***  
Fiber Reinforced  
Core Material

**1 CEMENT**

**Breeze™**

**EASY-TO-USE CEMENT**

No etch, no bond. Breeze cement bonds to the post and tooth structure.

**REDUCED SENSITIVITY**

Self-adhesive technology reduces potential sensitivity.

**HIGH BOND STRENGTH**

Self-etch formulation enhances bond strength for greater reliability.

**2 FIBER POST**

**FibreKleer™ 4x**

**CORE RETENTION**

Each post design supports retention.

**RADIOPACITY**

400% radiopaque allows clinician to easily see the post on an x-ray.

**STRENGTH & FLEXIBILITY**

FibreKleer 4x Fiber Posts have flexural strength close to dentin.

**3 CORE BUILD-UP**

**Build-It™ FR**

**STACKABLE HANDLING**

Build-It FR will not slump—making placement easy.

**EASY-TO-PREP**

Build-It FR offers the consistency of dentin for predictable prepping.

**STRENGTH**

Fiber Reinforced (FR) to add strength to create a strong foundation for the crown.

\* apply bonding system prior to Build-It FR application
