Lisa 17

Upgraded!

Lisa 17

- **NOW** with a larger screen – 5”
- Advanced yet easy to use
- Enhanced functionality for traceability, process control, and testing
- Interactive display with a clear, sleek interface and built-in instructional videos
- Cycle times starting at 13 minutes
- Traceability data available directly on the display
- Save time – let Lisa run vacuum and Helix tests outside of working hours
- Release loads and tests directly on the display – eliminate manual paperwork
- Lisa adapts each cycle to the specific load being sterilized; saves time and money, and is eco-friendly!
- Service interval: 4,000 cycles or 5 years, whichever comes first.
  Save thousands in service costs compared with traditional service intervals.
  Calculate how long it will take your clinic to reach 4,000 cycles
- NEW: Easy traceability and monitoring of every cycle via a new app (among other features); Wi-Fi ready

Available with 17- or 22-liter chambers
Capacity for 5 trays or 3 cassettes

6.680,-

~~8.817,-~~

App for the Lisa autoclave – not a must, but a convenient and modern way to utilize today‘s technology.

- Manage EliTrace data via mobile app
  Create data for EliTrace via the Lisa mobile app
- Follow the cycle in real time
  Monitor up to 4 autoclaves in real time
- Additional backup
  All information from the run is saved, providing an extra backup as well as the ability to retrieve history.
- Barcode scanner
  The app can scan barcodes printed by LisaSafe.
  The barcode can be scanned using the phone‘s camera.
- User editing
  Manage users directly on the phone. Updates are automatically applied to the autoclave.
